

4 Ways Service Translates to Trust When Investing in Money Markets

An independent investment portal is a standalone offering that is created solely to serve the needs of institutional investors. As such, extraordinary service and support is as important as its technology. Here are four reasons why investors say they can rely on ICD as their independent portal provider.

1

THE TRADE DESK ANSWERS

It doesn't take multiple calls to reach ICD's global trade desk, which operates across nine time zones.

2

ONE CALL DOES IT ALL

One call to the trade desk is all that it takes to get clients what they need, when they need it, saving them valuable time.

3

FUND RELATIONSHIPS GO A LONG WAY

ICD pre-qualifies investment flows, providing clients access to capacity.

4

EXPERTISE IS PERVASIVE

Experienced, licensed traders, relationship managers, and technologists specialize in treasury's unique trading requirements and business needs.

*ICD provides the best customer service
in the business.”*

- Kim Kelly Lippert, American Honda Companies, Inc.
