# BSI Action Manager

...powered by Entropy<sup>™</sup> Software.

# REDUCE COSTS I MAINTAIN COMPLIANCE I ANALYZE TRENDS

#### Faster Closeout of Actions

Automated, predefined workflow from root cause analysis to close out of actions.

#### Enhanced Task Management

Role awareness improves ownership of actions and tasks with automatic notifications + escalations.

#### Visibility into Operations

Real-time data on actions and tasks, audit trail history, and version control.

#### **Resource Efficiency**

Reduces burden on resources from follow-up activities, ensuring actions are implemented and effective.

#### **Effective Compliance**

Consistent and proven format for CAPA across people, department and location.

# Bringing Confidence to Compliance

Effective Corrective and Preventive Action (CAPA) management is an integral part of an organization's compliance efforts and critical to any continual improvement plan.

BSI Action Manager – powered by Entropy<sup>™</sup> Software – enables organizations to capture, track, and maintain accurate, auditable non-conformance records. BSI Action Manager provides an end-to-end solution that helps companies capture and profile findings from anywhere in their operations, conduct investigations to determine the root cause of the issue, track the entire action management process, implement required changes, and ensure that the issue is resolved quickly and effectively. Powerful analytics and reporting capabilities, offers managers and other stakeholders real-time visibility into the nonconformity remediation process – from initiation to closure.

No matter where an issue originates, or how many departments it touches, BSI Action Manager can effectively manage its resolution.

# ...making excellence a habit."
