Why Everything EV Live London? Why Now?

Electric vehicle markets the world over are set to grow exponentially in the years ahead. Driven by International decarbonisation targets and air quality ambitions, the adoption of EVs is rapidly becoming one of the global economy's must-watch events.

This is brought home on a micro level when you look at the activities of certain leading cities. With the creation of the London EV Infrastructure Taskforce in 2018, Mayor Sadiq Khan set London on the course that has made it one of the 25 Ev Capitals of the world. Following this in June 2019 with the London EV Infrastructure Delivery Plan has set out concrete steps to a carbon free city in 2050.

But decarbonising a city requires more than just a focus group and delivery plan, certain areas have been highlighted that will be key drivers for this development:

- Ⓢ Policy and Regulation
- Ⓢ Charging Infrastructure
- Ⓢ Last Mile and Urban Logistics
- Ⓢ Fleet Electrification

London, its mayor and resident companies and people have some serious challenges ahead:

- Ⓢ How will London address it's issues around land use for charge point installation?
- Ⓢ What new last mile mobility and logistics solutions will emerge?
- Ⓢ Does London need a unified CPN to deliver a truly powerful user experience?
- Ⓢ How will this massive infrastructure roll out be financed and will it deliver the ROI needed?
- Ⓢ How will new vehicle ownership models affect electrification and charge point utilisation?

Everything EV Live: London will be the must-attend conference for the London EV market as the transport sector prepares itself for potentially its most significant revolution yet.

"We need to reject the fossil fuels of the past and embrace an electric revolution in London's transport."

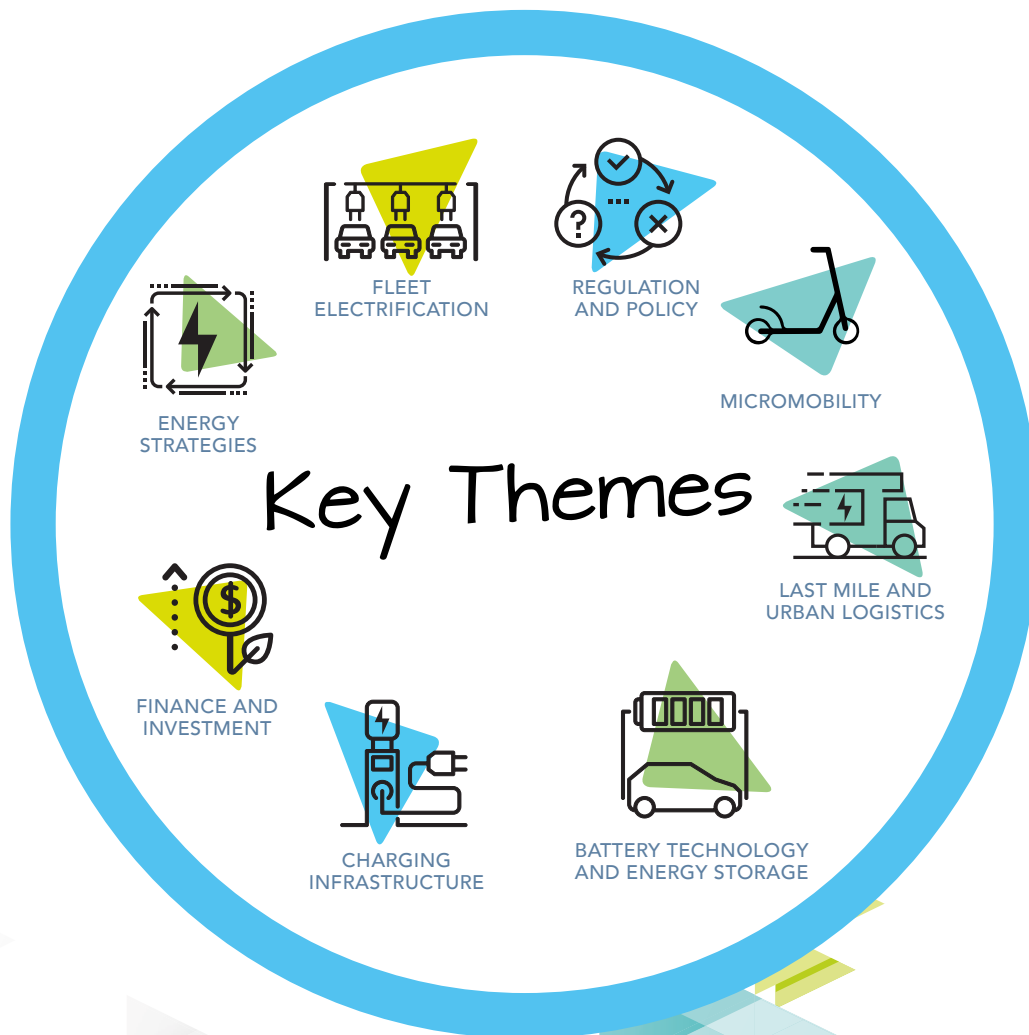

Sadiq Khan
Mayor of London

Liam Stoker,
UK Editor of [Current+](#) and
[Solar Power Portal](#)

Key Themes

Local authorities, government officials, fleet owners, transport authorities, commercial real estate owners, utilities, DNO's & networks will be coming to the event to discuss...

ev.solarenergyevents.com

London's EV Market Aspirations

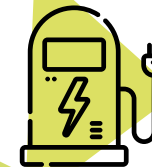

By 2030 60%

of vehicles in London will be electric

310,000+

more EVs forecast in London by 2025

50,000+

more charge points needed in London by 2025

marketing@solarmedia.co.uk | +44 (0)207 871 0122

This November, join:

Natasha Robinson
Joint Head of OLEV
OFFICE OF LOW EMISSION
VEHICLES

Join Natasha as she outlines the government position on London's delivery plan, how national policy will assist London's decarbonisation plan, and the impact London's EV targets might have on UK wide net zero targets.

Cllr Tony Newman
Leader of the Council
LONDON BOROUGH OF
CROYDON

Hear how Croydon council are answering resident led calls for more charging infrastructure and how they plan to install 400 charging points in the borough by 2022.

Matthew Dear
Programme & Project
Manager, Ultra Low
Emission Fleet,
LONDON FIRE BRIGADE

Join Matthew as he outlines the challenges of electrifying London Fire Brigade's support fleet, the additional problems that come with electrifying emergency response vehicles, and outlining how charging infrastructure was provided at their 102 depots as well as out on the road.

Tom Pakenham
Director
KALUZA

Tom will discuss how smart charging and V2G options can reduce demand on the grid caused by home charging, and explaining how charging can be provided for Londoners with no access to a wallbox.

Graeme Cooper
Project Director
NATIONAL GRID

Graeme will be discussing National Grid's view on how future infrastructure's demands on the grid can be met, and peak charging times can be managed

2019 Speakers also include:

Adrian Keen
CEO
INSTAVOLT

Amit Chopra
EVC Specification & Sales
Manager
SCHNEIDER ELECTRIC

Anthony Ezkinazi
Technology Innovation &
Research Board Member
BRITISH PARKING
ASSOCIATION

Axel Jaegle
Commercial Specialist,
Project & Structured
Finance Group
INFRASTRUCTURE AND
PROJECTS AUTHORITY

Cem Kemahli
Lead Member For The
Environment
ROYAL BOROUGH OF
KENSINGTON & CHELSEA

Chris Large
Senior Partner
GLOBAL ACTION PLAN

Chris Wright
CTO

Dalia Majumder-Russell
Senior Associate,
Energy
CMS UK

Daniel Brown
Policy Manager
RENEWABLE ENERGY
ASSOCIATION

Danny Winn
Business Unit Director -
eMobility - UK, IRE, NL
SCHNEIDER ELECTRIC

Dave Beacher
Operations Director
MILK & MORE

Denise Beedell
Policy Manager - Vans
& Urban
FREIGHT TRANSPORT
ASSOCIATION

Dhara Vyas
Head of Future Energy
Services
CITIZENS ADVICE

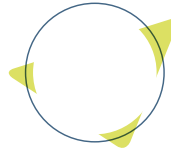

Graeme Cooper
Project Director
NATIONAL GRID

Hanif Khan
Cabinet Member
for Transport and
Corporate Property
LONDON BOROUGH
OF HOUNSLOW

Ian Hawthorn
Assistant Director
Environment Special
Projects
LONDON BOROUGH
OF HAMMERSMITH &
FULHAM

Jemima Hartshorn
Founder
MUMS FOR LUNGS

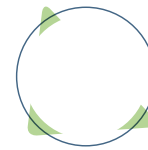

Jeremy Martin
Energy & Sustainability
Manager
SOUTHEND BOROUGH
COUNCIL

Jeremy Yapp
Head of Flexible Energy
Systems
BEAMA

Joe Baker
Head of Carbon
Management
LONDON BOROUGH OF
HARINGEY

Johnny Page
Sustainable Finance -
Investments & Partnerships
CYAN FINANCE

Jon Burke
Cabinet Member for Energy,
Waste, Transport and Public
Realm
LONDON BOROUGH OF
HACKNEY

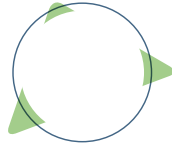

2019 Speakers also include:

Joseph Cosier
Policy Executive for
New Energy & Heat
ENERGY UK

Julian O'Kelly
Head of Technology,
Innovation & Research
**BRITISH PARKING
ASSOCIATION**

Laszlo Mulato
Managing Director
FRUIT 4 LONDON

Louise Dalton
Senior Associate,
Energy
CMS UK

Louise Wilson
Founder & Joint
Managing Director
**ABUNDANCE

Lucy Hayward-Speight
Delivery Planning
Manager - Air Quality &
Environment
**TRANSPORT FOR
LONDON**

Massimo Resta
Partner - Infrastructure
ZOUK CAPITAL

Matthew Dear
Programme & Project
Manager - Ultra Low
Emission Fleet
**LONDON FIRE
BRIGADE**

Mohammed Chibou
Principal Transport
Planner
**ROYAL BOROUGH OF
GREENWICH**

Matthew Lumsden
CEO
CONNECTED ENERGY

Muhammed Butt
Council Lead
**LONDON BOROUGH
OF BRENT**

Natasha Robinson
Joint Head
**OFFICE FOR LOW
EMISSION VEHICLES**

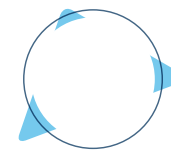

Neil Madgewick
Head of Connections
Service Delivery
UK POWER NETWORKS

Paul Barnfather
Head of Electric Vehicle
Infrastructure
EA TECHNOLOGY

Paul Ellis
Cabinet Member for
Strategic Planning &
Transportation
**LONDON BOROUGH
OF WANDSWORTH**

Paul Gallagher
Consultant
JLL

Sam Clarke
Founder & Head of
Business Development
GNEWT

Sara Sloman
Principal Sustainable
Travel and Road Safety
Officer
**NORTH SOMERSET
COUNCIL**

Stephen Alambritis
Leader of The Council
**LONDON BOROUGH
OF MERTON**

Stephen Cowan
Leader of The Council
**LONDON BOROUGH
OF HAMMERSMITH &
FULHAM**

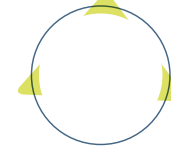

Steve MacNamara
General Secretary
**LONDON
TAXI DRIVERS
ASSOCIATION**

Tom Pakenham
Director - Electric
Vehicles
KALUZA

Tony Newman
Leader of The Council
**LONDON BOROUGH
OF CROYDON**

Vikas Ahuja
Energy Projects
Manager
**IMPERIAL COLLEGE
HEALTHCARE NHS
TRUST**

Day One - 12 November 2019

KEYNOTES

09:00 - 09:25 HOW LONDON WILL LEAD THE WAY FOR NATIONWIDE EV ADOPTION

- Assessing how the London Plan's roadmap to zero emission transport by 2030 can be applied to meet a UK-wide ban on ICE vehicles by 2040
- Understanding how national policy will impact the success of London's decarbonisation plan

Natasha Robinson, Joint Head of OLEV, **Office for Low Emission Vehicles**

09:25 - 09:50 CAPITAL DECARBONISATION COUNTDOWN - 11 YEARS TO ACHIEVE ZERO EMISSIONS

- Incentivising consumers to achieve 30% of new vehicle registrations as EVs by 2025
- Examining the impact of London's ULEZ and the potential of a future ZEZ
- Analysing how two million people in London living with illegal air pollution can be protected with 50% of London's pollution coming from road transport

09:50 - 10:30 PANEL: FROM COMMITMENT TO CONSTRUCTION - REALISING LONDON'S DELIVERY PLAN

- Understanding how key private and public organisations in London can collaborate to build charge points
- Address land challenges with space for chargers at a premium and some streets unsuitable due to narrowness or design
- Overcoming concerns of future charger obsolescence, with the fear of backing the wrong charger a roadblock to entry for some organisations

Jon Burke, Cabinet Member for Energy, Waste, Transport and Public Realm, **London Borough of Hackney**

Lucy Hayward-Speight, Delivery Planning Manager - Air Quality & Environment, **Transport for London**

Paul Ellis, Cabinet Member for Strategic Planning & Transportation, **London Borough of Wandsworth**

Samuel Taylor, Senior Manager, Innovation Link, **Ofgem**

Steven Alambritis, Leader of The Council, **London Borough of Merton**

10:30 - 11:00 MORNING COFFEE BREAK

HIGH IMPACT STRATEGIES FOR FAST DECARBONISATION

11:00 - 11:20 NATIONAL GRID KEYNOTE PRESENTATION

Graeme Cooper, Project Director, **National Grid**

11:20 - 12:00 PANEL: FINAL DESTINATION: 300 RAPID CHARGERS BY 2020

- Understanding how to deliver London's first rapid destination charging hub, from assessing demand to construction
- Supporting the roll-out of additional rapid chargers in areas such as retail and car parks in order to ensure access to every Londoner
- Collaborating with the private sector and land owners to ensure charger delivery, maintain quality and support a growing e-mobility industry

Adrian Keen, CEO, **Instavolt**

Danny Winn, Business Unit Director - eMobility - UK, IRE, NL, **Schneider Electric**

Jeremy Martin, Energy & Sustainability Manager, **Southend Borough Council**

Mohammed Chibou, Principal Transport Planner, **Royal Borough of Greenwich**

12:00 - 12:20 MOBILITY FOR THE MAAS-ES

- Exploring how electric vehicles from cars and vans to bikes and scooters will supercharge MAAS and multi modal transport solutions
- Enabling a unified London transport architecture through MAAS services, and how consumers stand to benefit
- Analysing how MAAS might encourage EV adoption, and change the way that the average consumer travels

12:20 - 12:50 NEW SOLUTIONS TO HIT FLEET EMISSIONS TARGETS

- Understanding which last mile solutions can fill the gap in the short term, and how these can deliver quick wins to hit targets and reduce reliance on ICE vehicles
- Developing strategies for integrating last mile solutions into your fleet immediately
- Assessing whether traditional OEMs can deliver the volume of EV vehicles long term needed to allow fleet owners to meet their emissions targets or if new solutions are required

Laszlo Mulato, Managing Director, **Fruit 4 London**

Sam Clarke, Founder & Head of Business Development, **GNewt**

Day One - 12 November 2019

12:50 - 13:20 **SIMPLIFYING THE CONSUMER/ CHARGEPOINT TRANSACTION**

- Analysing whether purchasing an EV, charger, roaming charging, energy supplier can be one transaction and how this can be achieved
- Educating consumers on how V2G will work, that they will achieve a full charge, and that their battery will not be degraded by V2G
- Navigating interoperability between different operators and charge points

Dhara Vyas, Head of Future Energy Services, **Citizens Advice**
Paul Barnfather, Head of Electric Vehicle Infrastructure, **EA Technology**

13:20 - 14:20 **LUNCH**

14:20 - 14:40 **KALUZA KEYNOTE PRESENTATION**

14:40 - 15:30 **PANEL: DELIVERING V2G AND SMART CHARGING TO POWER THE E-MOBILITY REVOLUTION**

- Discussing energy strategies to minimising the need for grid upgrades
- Deploying stationary energy storage to reduce load demands on the grid at peak periods
- Enabling renewable energy sources to power truly Zero EVs with innovative energy strategies

Joseph Cosier, Policy Executive for New Energy & Heat, **Energy UK**
Vikas Ahuja, Energy Projects Manager, **Imperial College Healthcare NHS Trust**

15:30 - 15:50 **ACHIEVING TRUE TRANSPORT DECARBONISATION WITH RENEWABLE ENERGY**

- Delivering true zero emissions by harnessing renewable energy strategies
- Understanding strategies to utilise rising renewable provision, renewable only tariffs and energy storage

15:50 - 16:15 **AFTERNOON COFFEE BREAK**

16:15 - 16:35 **DEPLOYING ENERGY STORAGE NOW - CAR PARK OWNER/ DESTINATION HUB**

Examining practical examples of how car parks and retailers have utilised energy storage solutions to offer consumers low cost renewable energy

16:35 - 16:55 **DEPLOYING ENERGY STORAGE NOW - MOBILE CHARGING**

Can mobile charging solutions solve the problem of stranded EVs and convert consumers who do not have access to a permanent charging point?

16:55 - 17:15 **DEPLOYING ENERGY STORAGE NOW - SECOND LIFE BATTERIES**

How can second life batteries reduce costs and the environmental impact of deploying energy storage?

17:30 **EV CONNECT**

Moving beyond the working day, EV Connect provides a unique opportunity to network with peers who are driven to grow within in the electric vehicle space in a more relaxed and social environment. Join us at the The Chelsea Harbour Hotel for an evening of premium drinks and canapes and even a pub quiz.

Day Two - 13 November 2019

09:00 - 09:20 REIMAGINING ONE OF THE WORLD'S OLDEST CITIES

- Hearing a vision for a future zero emission London, utilising EVs and the latest last mile strategies
- Imagining what changes, structural and legislative, need to be made in order to position London as a leader in EV usage
- Proposing innovative EV infrastructure solutions to London's unique urban landscape

09:20 - 10:00 PANEL: COHERENT POLICY MAKING IN LONDON

Navigating the challenges and differing priorities of London's 32 boroughs to ensure a city-wide infrastructure strategy -Understanding the role individual boroughs will play in meeting charger density requirements, with 95% of London roads out of TfL's control -Assessing the variation in both demand for types of charger, and the space to build between different boroughs

Cem Kemahli, Lead Member For The Environment, **Royal Borough of Kensington & Chelsea**

Muhammed Butt, Council Lead, **London Borough of Brent**

Stephen Cowan, Leader of The Council, **London Borough of Hammersmith & Fulham**

10:00 - 10:30 SECURING AND DEPLOYING PUBLIC FUNDING FOR INFRASTRUCTURE PROJECTS

- Best practice for funding applications
- Ensuring maximum ROI on public funds with examples of boroughs who have made the most of public grants
- Exploring the latest PPP models and examining what assistance the public sector can provide beyond financing

10:30 - 11:00 MORNING COFFEE BREAK

11:00 - 11:40

PANEL: SLOW, FAST, RAPID - WHO NEEDS WHAT, WHERE?

- Exploring what is needed to achieve the Electric Vehicle Taskforce's aim of 300 rapid and 3500 slow to fast charge points in the ground by 2020
- Satisfying consumer demand of both charger location and speed and encourage EV adoption
- Understanding the current options to ensure chargers can be deployed without straining the grid, including Grid reinforcement, energy storage, V2G, smart charging, and energy tariffs

Colin Herron, MD, **Zero Carbon Futures**

Denise Beedell, Policy Manager - Vans & Urban, **Freight Transport Association**

Ian Hawthorne, Assistant Director Environment Special Projects, **London Borough of Hammersmith & Fulham**

11:40 - 12:00

CHARGING THE REVOLUTION - HOME CHARGING

How can home charging be provided for Londoners living in flats with no access to a wallbox?

Tom Pakenham, Director - Electric Vehicles, **Kaluza**

12:00 - 12:20

CHARGING THE REVOLUTION: SCHNEIDER ELECTRIC SHOWCASE

Amit Chopra, EVC Specification & Sales Manager, **Schneider Electric**

12:20 - 12:40

CHARGING THE REVOLUTION - ON STREET CHARGING

Increased customer dwell time and a new profit center or a loss leader to ensure competitiveness? What role will destination charging play?

Tony Newman, Leader of The Council, **London Borough of Croydon**

Day Two - 13 November 2019

12:40 - 13:00 CHARGING THE REVOLUTION - DESTINATION CHARGING

Increased customer dwell time and a new profit center or a loss leader to ensure competitiveness? What role will destination charging play?

Julian O'Kelly, Head of Technology, Innovation & Research, **British Parking Association**

13:10 - 14:10 LUNCH

14:10 - 14:40 REIMAGINING THE DEPOT FOR ELECTRIFIED FLEETS

- Retrofitting an existing depot to be able to support EVs with an increased dwell time to charge, and a potential need for more frequent recharging
- Understanding the infrastructure investment of building a depot to support e-mobility lorry, bus or van fleets from scratch
- Looking at how the role of the fleet manager is set to change from managing a fleet of vehicles to a fleet of batteries as fleets are converted to EVs

Anna Pearson, Fleet Innovation & Environment Manager, **Royal Mail**

14:40 - 14:55 A ROAD MAP TO DECARBONISING KEY FLEETS - BUSES

From charging hubs to wireless charging - what needs to be done to continue the electrification of London's buses?

14:55 - 15:05 A ROAD MAP TO DECARBONISING KEY FLEETS - EMERGENCY & SPECIALIST VEHICLES

- Exploring the challenges for the London Fire Brigade to electrify both fire engines and transition to zero carbon support vehicles
- Discussing the changes that need to be implemented to support this new electric fleet both back at LFB's 130 depots and out on the road

Matthew Dear, Programme & Project Manager - Ultra Low Emission Fleet, **London Fire Brigade**

15:05 - 15:20 A ROAD MAP TO DECARBONISING KEY FLEETS - TAXIS & PRIVATE HIRE

Explore the role taxi licensing stipulations, incentives and support play in electrifying taxi and private hire fleets.

Steve MacNamara, General Secretary, **London Taxi Drivers Association**

15:25 - 15:40

A ROADMAP TO DECARBONISING KEY FLEETS - COMMERCIAL & LAST MILE

- Discussing best practice for converting fleets for last mile deliveries and navigation ULEZ charges
- Outlining GNewt's Asos partnership, and how retailers can outsource rather than develop their own EV fleets
- Analysing whether relying on public infrastructure is possible to charge your fleet, or whether there is a need to develop your own

Sam Clarke, Founder & Head of Business Development, **GNewt**

15:40 - 16:00

AFTERNOON COFFEE BREAK

16:00 - 16:40

PANEL: CHARGERS, CHARGERS EVERYWHERE BUT WHICH ONES TURN A PROFIT?

- Ensuring ROI from charging infrastructure through innovative business models
- Exploring if a universal service model would allow coverage for more remote areas

Louise Wilson, Founder & Joint Managing Director, **Abundance Investment**

16:40 - 17:00

FIRESIDE CHAT: ZOUK & CIIF A PUBLIC/PRIVATE EV SUCCESS STORY

- Diving into key investments and wins 6 months after Zouk was awarded the contract to manage CIIF
- Highlighting the resulting opportunities for London and the UK

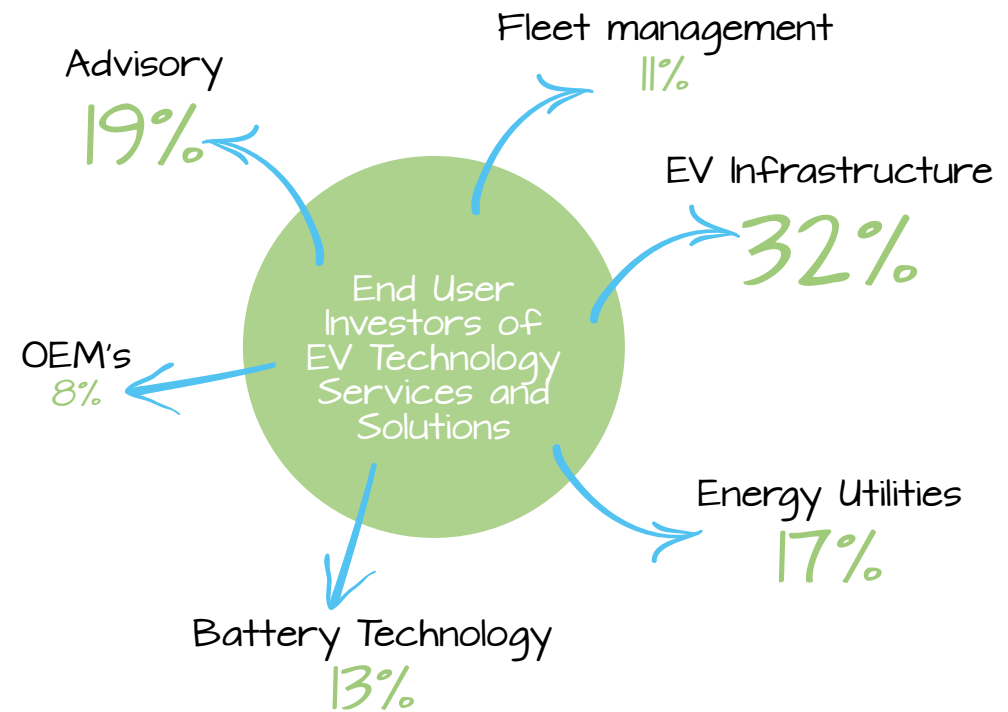

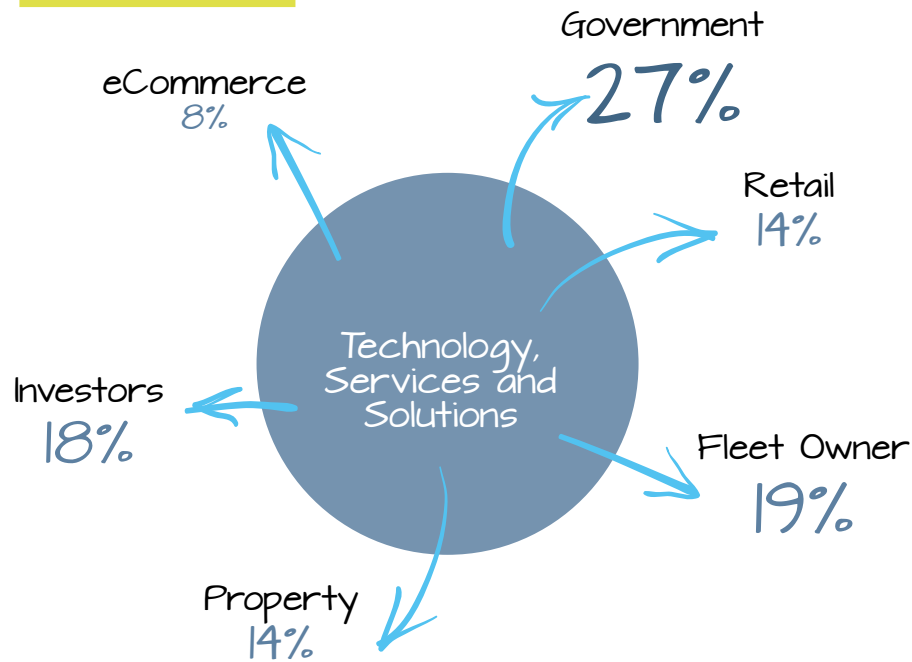

Axel Jaegel, Commercial Specialist, Project & Structured Finance Group, **Infrastructure and Projects Authority**
Massimo Resta, Partner - Infrastructure, **Zouk Capital**

17:00 - 17:20

INCREASING ASSET LIFESPAN

- Addressing investment uncertainty around charging standards and obsolescence
- Assessing the total cost of investment across the lifespan of a charger in order to understand how ROI can be increased at each stage

Attendee Breakdown

This event was extremely valuable; it brought together leading organisations and allowed time make new business connections in the comfortable and well-timed networking sessions.

Stirling Habbits, Triodos Bank NV

Everything EV was everything it stated on the tin. I thoroughly enjoyed the event, met some interesting contacts and will definitely be attending again in the future.

Keenan Grattrick, Aten Group Ltd.

Confirmed Attendees include:

Government and Local Authority:

Office for Low Emission Vehicles
Transport for London
Department for Transport
The Greater London Authority
Royal Borough of Greenwich
London Borough of Croydon
London Borough of Hammersmith & Fulham
London Borough of Brent
Borough of Kensington and Chelsea
London Borough of Merton
London Borough of Newham
London Borough of Wandsworth
London Borough of Lambeth
London Borough of Haringey

Department of Business, Energy & Industry

Ministry of Defense
Ofgem
UK Power Networks
Southend Borough Council
Zero Carbon Futures
Bristol City Council
Cambridgeshire County Council

Brighton & Hove City Council
Blaenau Gwent County Council
Surrey County Council
Winchester City Council
West Berkshire Council
Welsh Government
Harrogate Borough Council
Essex County Council
West Sussex County Council
Energise Barnsley
Hampshire Country Council
Oxfordshire County Council

Fleet Owners & Transport Authorities:

DPD
Gnewt Cargo Ltd.
UPS
Freight Transport Association
Taxi Drivers Association
London Fire Brigade
Royal Mail
Fruit 4 London
John Lewis

Property Developers & Car Park Operators:

Imperial College Healthcare NHS Trust
Green Parking
BBC
NHS National Services Scotland

Institutional Investors:

Zouk
Salix Finance
Wylands Bank
Helios Fund

Associations/ Not for Profit:

Energy UK
Renewable Energy Association
Citizens Advice
Scottish Futures Trust
University of Warwick

...and
many more

The Visitor Experience

CASE STUDY LED AGENDA

Hear leading case studies from your peers that outline successful deployments and projects in the electric vehicle sector.

KEYNOTES

Listen to industry leaders and disruptors as they outline the sectors key challenges, barriers and solutions across the electric vehicle space.

1-2-1 MEETINGS

Pre-arrange meetings with our brand new interactive event app, and strengthen existing relationships or start new business alliances with those who can help steer your transition to zero carbon roads.

EV CONNECT: NETWORKING DRINKS RECEPTION

After a hard day's work, network with your peers and potential partners in an informal setting over drinks and canapés at the end of day 1 of the event.

Outstanding Networking Opportunities

Create The Partnerships Your Business Needs To Move Into The Electric Vehicle Era

SCHEDULED NETWORKING

68% of professionals value face-to-face networking more than online/on the phone and nearly 100% of people say face-to-face meetings are essential for long-term business relationships.

Everything EV has incorporated more networking time into the agenda, to ensure all of our attendees get the most out of their 2 days.

NETWORKING TOOL

All delegates will be given access to our brand new interactive event app, with an extensive set of networking features that enables you to connect with your peers ahead and during the event.

Come to the event with meetings pre-arranged!

EV CONNECT SPONSORED BY NATIONALGRID

Business networking should be fun and frequent... EV Connect, taking place at the close of day 1, is designed to help you establish the network you need to succeed in the EV space and meet industry leaders in an informal environment.

BOOK NOW TO SECURE YOUR PLACE AT
EV CONNECT >>

What our Attendees Say

It was such a fantastic event, I am still on a high from it and building on the connections made there!

North Somerset Council

Really enjoyed the day – the range and extent of the content was spot on.

Anglian Water

It was a great event and a good mix of funders, innovators, manufacturers, academics and public sector.

Transport for Greater Manchester

This conference was a 'must attend' for anyone involved in the transition to electric transport.

Suffolk County Council

Grow Your Business Through Sponsorship

GENERATE SALES -READY LEADS

with key stakeholders across the EV ecosystem.

RING FENCE EXISTING PROSPECTS AND CLIENTS

to cement your position as a leading partner in the EV space

BUILD PIPELINE AND SHORTEN SALES CYCLES

by accessing senior decision makers and stakeholders from across the EV ecosystem.

ENHANCE YOUR BRAND POSITIONING

within the EV space and ensure you're front of mind with decision makers and key industry stakeholders, as the EV sector moves into a period of accelerated growth and innovation.

BECOME A THOUGHT LEADER

to ensure the market is fully cognisant of the unique benefits of your solutions and the advantages of partnering and investing with you.

DEMONSTRATE YOUR COMMITMENT TO DRIVING FORWARD THE EV AGENDA

to position yourself as a key enabler and partner of choice in making these aspirations a reality.

Sponsorship Packages

PLATINUM

The ultimate leadership position in the emerging EV ecosystem

£20,000

- ✓ Keynote day-one speaking opportunity
- ✓ Panel moderator
- ✓ Exclusive pre-event interview published on Current±
- ✓ x20 VIP invites for customers and prospects
- ✓ x6 VIP event passes for your team

GOLD

A premium branding and business development solution

£15,000

- ✓ Keynote day-two speaking opportunity
- ✓ Panel moderator
- ✓ x15 VIP invites for customers and prospects
- ✓ x15 VIP invites for customers and prospects
- ✓ x4 VIP event passes for your team

SILVER

Create authority, brand awareness and new leads for your business

£10,000

- ✓ Panel participation or moderator
- ✓ Exhibition stand
- ✓ x10 VIP invites for customers and prospects
- ✓ x2 VIP event passes for your team
- ✓ Access to pre-event networking app

EXHIBITOR

Branding, business development and lead generation

£5,000

- ✓ Exhibition stand
- ✓ Access to pre-event networking app
- ✓ x5 VIP invites for customers and prospects
- ✓ x2 VIP event passes for your team
- ✓ Logo on marketing materials
