

Motili and HomeSphere bring streamlined HVAC procurement for builders and developers.

**motili**

a member of **DAIKIN** group

**Motili** leverages the use of energy-efficient **Goodman**® brand HVAC systems to help ensure customers, distributors, contractors and operations team's satisfaction. **Motili** offers customers one of the industry's most advanced internet platforms to handle work requests from start to finish. The platform optimizes all aspects of a job including automatic scheduling, dispatching, managing and invoicing job requests. The predictive analytics process help to improve budgeting accuracy by identifying potential project equipment failures before they happen.

## TWO SIMPLE WAYS TO ORDER

### Direct Order

Project managers can purchase equipment directly from the manufacturer.

Direct Order is recommended for most builders and developers.

### Direct Services

Need labor and equipment for your company?

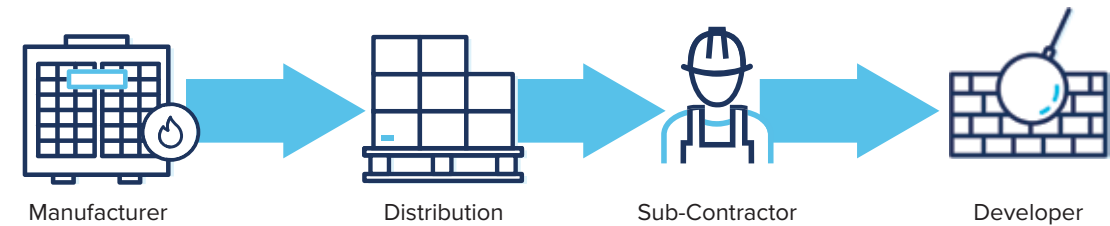

Motili's direct service provides turn-key HVAC repairs and replacements nationwide.

Motili joins forces with HomeSphere to provide unparalleled turnkey HVAC management to builders and developers.

Supply Chain Optimization

TRADITIONAL SOURCING
