CECO Stainless Steel Sinks

ABOUT CECO

We are proud to include high quality Stainless Steel Sinks in the CECO product line. These sinks are designed and manufactured to offer superior quality and exceptional value.

In 1928, CECO founder Michael Hurray decided to offer a superior line of porcelain enameled cast-iron fixtures for residential and commercial plumbing systems. The cast iron product line includes kitchen and bar sinks, lavatories, laundry trays, service sinks, floor sinks, and accessories. These products of supreme workmanship, versatile design, and resilient materials deliver lasting value and stand the test of time.

Today, co-owners Matthew and Mark Hurray continue to deliver the CECO promise of quality craftsmanship and genuine care for each product that leaves their warehouse. Before they took over CECO, they worked their way up from the warehouse floor, to the foundry and enameling room, to customer service and finally into sales and manufacturing.

For over four generations, family-owned CECO has become a mainstay feature of homes and businesses across the country. From kitchen and bathroom sinks in homes, schools, and hospitals to lavatories and floor sinks in supermarkets, restaurants, and cafes, CECO products are trusted to function impeccably whenever needed.

Every CECO fixture is a tribute to the pursuit of the dream that began back in 1928; where every satisfied customer is a testimony to a bright future.
