SMART SOLVES: MAKE A BOLD STATEMENT!

Tell your story with style. The goal?
Functional design with visual interest.
Beautiful ventilation hoods are sure to
punctuate your setting with panache. Let your
Aristokraft designer show you the options.

*Tip: Transitional or Traditional?
This look is perfect either way!*

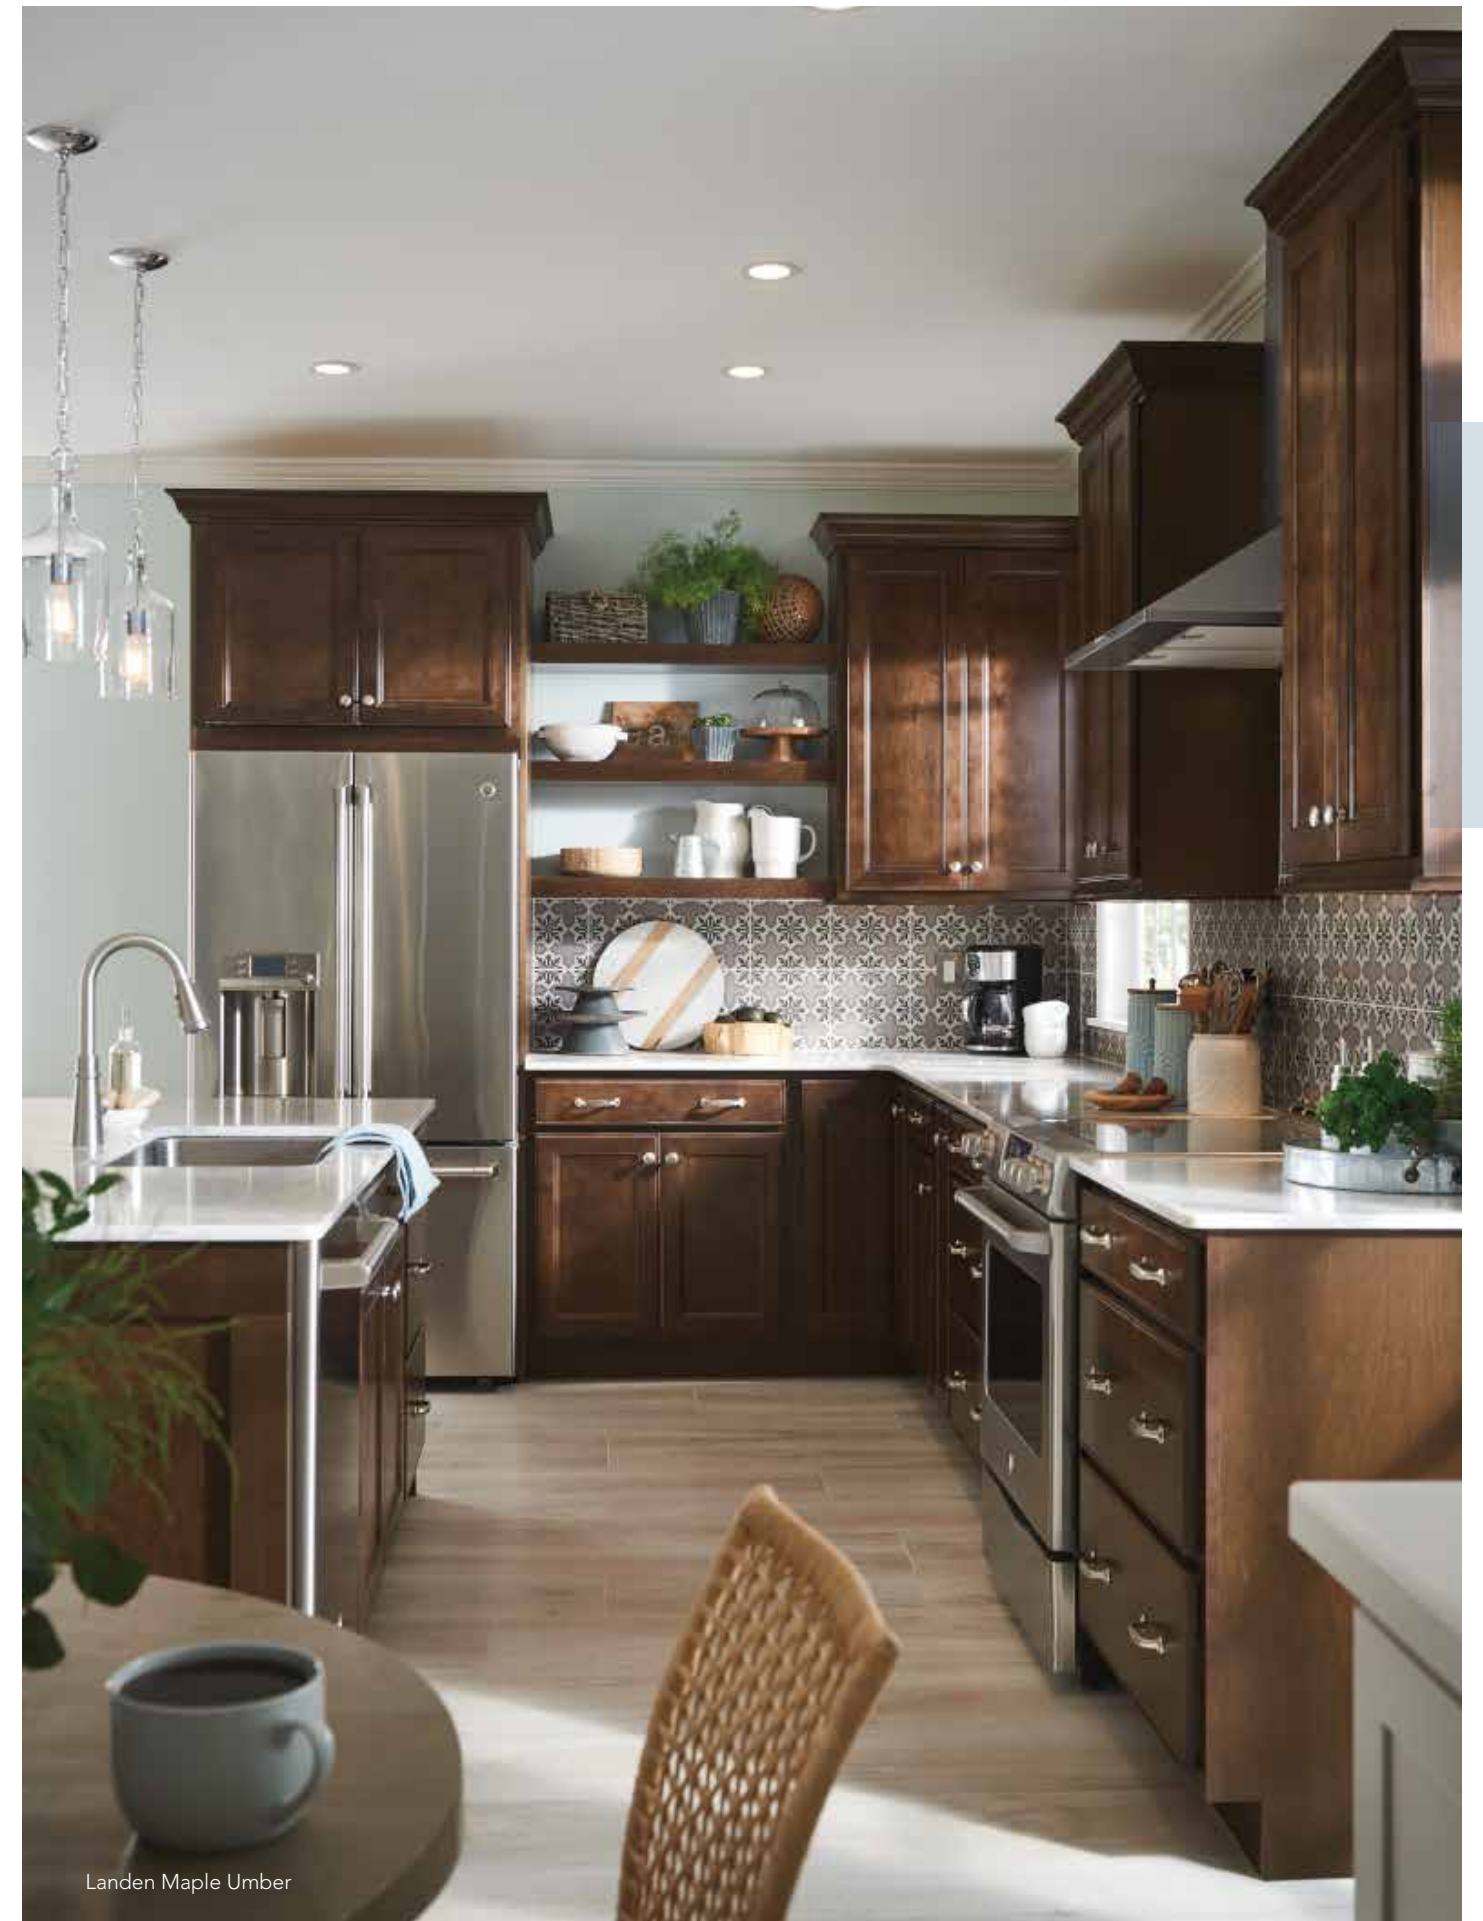

SMART SOLVES: PRETTY IS AS PRETTY DOES.

Beauty and function align, with every square inch accounted for in a kitchen that presents a modern take on the farmhouse vibe.

Tip: Like the look? Get extra credit for decorative tile. Styles that pull color tones from the cabinetry earn a ✓+.

Don't let a little galley get you down! With everything at arm's length, galley kitchens are efficient and useful. Keeping a neutral color palette opens up the space, while thoughtful cabinet choices offer just-right storage.

SMALL SPACES: BIG REWARDS!

An unexpected combination of glass door cabinets and an attractive range hood pay off big time, adding maximum appeal in a minimal amount of space.

Tip: Continue the look with a coffee bar or buffet in a breakfast nook or dining space.

Tuck in a little landing space to plan meals or pay bills.

GET THE LOOK: ADD A THIRD COLOR AS AN ACCENT.

Not everyone is up for three cabinetry colors in one room, but for those who are adventurous, adding an accent color on an island or a hood for example, accompanied by the same color in accessories, cookware or serving pieces, takes the look to a whole new level. In this kitchen, touches of blue on the walls and in the base open cabinet carry out the island's Admiral color theme, proving that a litte color continuity goes a long way!

Tip: Place accent cabinetry into an adjacent space and fill it with coordinating accessories to complete the theme.

ADDITIONAL COLOR COMBINATIONS

Don't be afraid to mix door styles, materials or drawer front options for intentional differentiation and color blocking.

SMART SOLVES: USE EVERY SQUARE INCH!

Design beyond typical, traditional wall and base cabinets to maximize function and up the style factor!

- By taking cabinets to the counter, it's easy to tuck away bulky appliances. Glass doors above keep the look airy and light.
- Choose a wall and go floor to ceiling with pantry cabinets and appliances for a built-in, high-end look.

GET THE LOOK: MIX THINGS UP!

Who says a two tone kitchen has to feature White? Mix things up and add some personality by combining color in an unexpected way.

Added benefit? Selecting a PureStyle finish makes cleanup a snap and is easy on the pocketbook.

MIX IT UP WITH PRETTY PAIRINGS

Tie multiple finishes together with a neutral countertop, or go all out with a color coordinating countertop and backsplash!
