

EloPOS™ for Android

Built on Elo's unified architecture, the powerful and elegant EloPOS for Android point of sale systems deliver versatility designed to fit your business.

EloPOS Z10

The EloPOS Z10 delivers a minimalistic design to help optimize checkout in compact spaces.

EloPOS Z20

The EloPOS Z20 offers a versatile design that allows you to flip from full-service to self-service.

EloPOS Z30

The EloPOS Z30 brings all the connectivity you need at the point of sale with a built-in interactive CFD.

Top features:

- 15.6" full HD 10-touch display
- Optional secondary touch display
- Connectivity Hub
- Concealed cable routing
- Android 10 with GMS
- Qualcomm & Rockchip processors
- Commercial-grade durability

The EloPOS Z20 & EloPOS Z30 offer integrated connectivity-rich hubs allowing you to easily connect your point of sale accessories.

Create your perfect POS system.

From integrated I/O and a customer-facing display to concealed cable routing, Elo's modular point of sale solutions can be tailored to fit any business.
