## Overview

Meridian Leasing is one of the leading independent equipment providers in the U.S. We've been helping clients with their equipment needs since 1979 – and we're proud to say that some of them have been with us from day one. Meridian enables the top healthcare facilities to manage the transition from volume to value-based care. We provide access to equipment without the burden of ownership, so you can focus on saving lives, while we focus on saving you money.

# The Meridian Difference

Our financial incentives are aligned with yours. We help you acquire the right equipment at the right price. Meridian's subject matter experts review your equipment quotes against an extensive pricing database to be sure you get the right equipment at the lowest monthly cost. By investing our own capital and because we have a refurbishment facility, Meridian will give you the most competitive lease payments.

With Meridian as your trusted partner, you have access to an extensive inventory of Meridian SELECT certified refurbished equipment that meets or exceeds OEM performance standards. Meridian SELECT certified refurbished equipment allows hospitals, health systems, and imaging centers to reduce the cost of providing quality care.

# Equipment We Lease, Supply, & Rent

“

Meridian has allowed us to conserve our capital and reduce our expenses while giving us the flexibility to bring the most advanced technology and highest level of care to our patients.”

# Certified Refurbished Equipment

Extract up to 55% from the cost of your medical equipment, including CT scanners, MRI machines, ultrasounds, and hospital beds, with Meridian SELECT certified refurbished equipment. Meridian SELECT equipment undergoes a comprehensive and stringent process to restore the unit to OEM performance standards. During the proprietary seven-step process, the system is thoroughly cleaned, components are tested by experts and replaced if necessary, and the system is painted and inspected before being packaged for delivery.

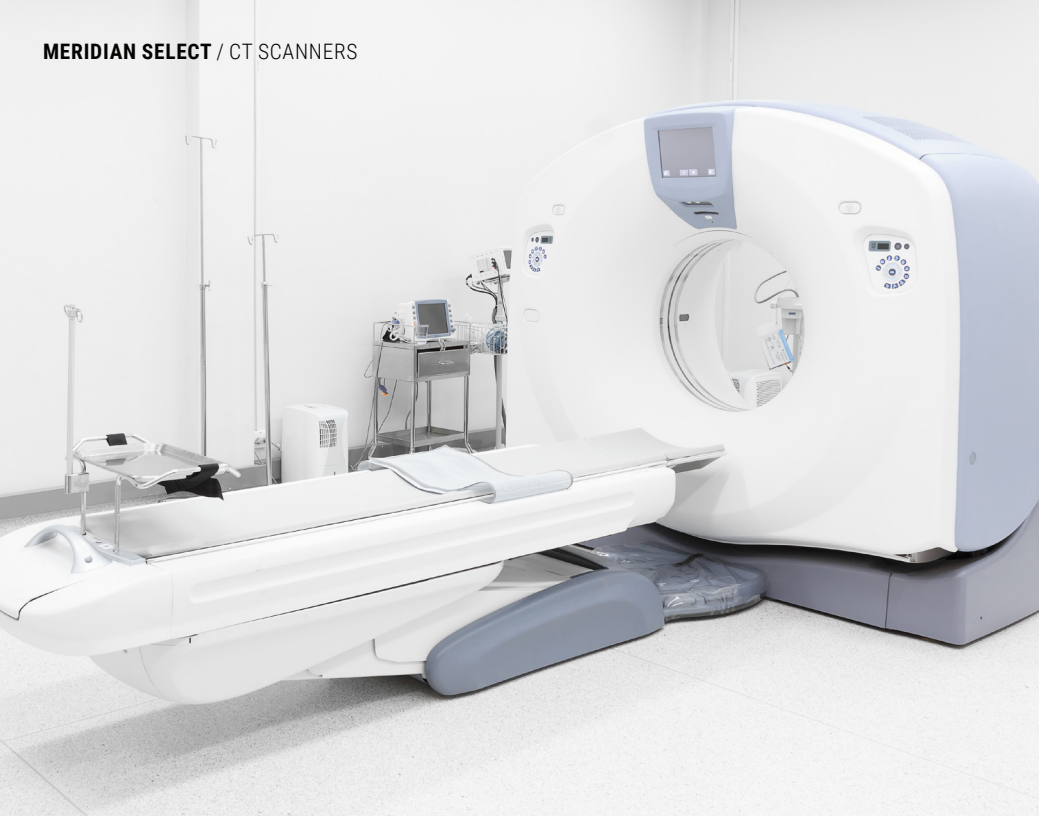

# Ultrasounds

**meridian SELECT**

Hospitals and imaging centers trust Meridian Leasing when they need to buy or lease new and refurbished ultrasounds. We provide an extensive inventory of ultrasound equipment models from the top manufacturers such as GE, Philips, and Siemens. We offer ultrasounds for all specialties including Shared Services, OB/GYN, Cardiac, Urology, and Point of Care.

## CT Scanners

**meridian SELECT**

Meridian Leasing's medical equipment experts ensure the highest quality new and refurbished CT scanners for lease and sale at the lowest price. We provide CT scanners from 16-128 slices depending on your requirements. We provide an extensive inventory of CT scanners from the top manufacturers such as Siemens, GE, and Toshiba.

## MRI Machines

**meridian SELECT**

At Meridian, we provide high quality refurbished MRI machines with prices up to 55% off the new equivalent. Our offerings are tailored to reduce the underlying equipment cost, resulting in a lower monthly payment for you, should you need to finance or lease your MRI machine. We have 1.5T and 3.0T MRI machines from top manufacturers such as GE, Philips, Siemens, and Toshiba.

# Hospital Beds

## meridian SELECT

Meridian provides high-quality refurbished beds that are indistinguishable from new, at a fraction of the price, so you can ensure your patients are satisfied and comfortable. All refurbished beds come with a new mattress and a 1-year parts and labor warranty.

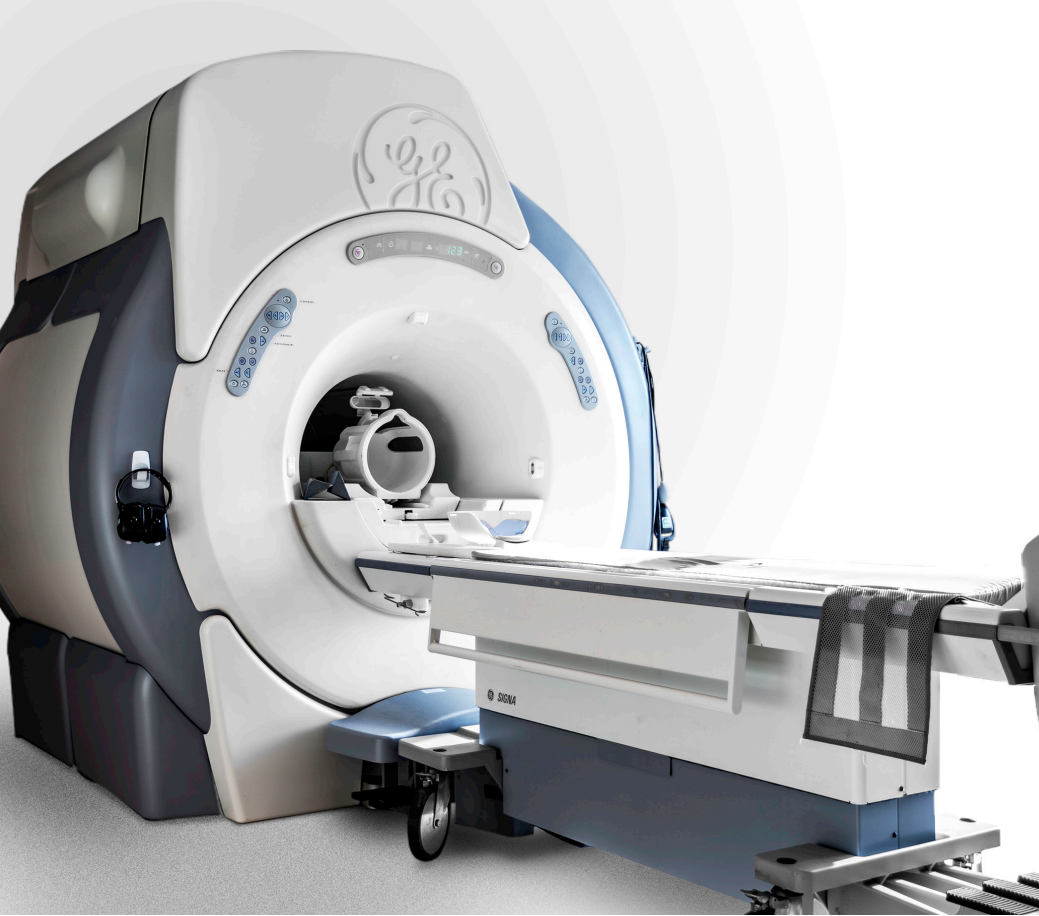

## Warranty & Service

Meridian SELECT certified refurbished equipment includes a full 30-day warranty covering all parts and labor. It also qualifies for your choice of OEM or independent third-party maintenance providers to support its continued operation.

## MRI/CT Upgrades

At Meridian Leasing, we have helped our clients gain access to new revenue streams through our simple and efficient MRI/CT upgrade process. Meridian Leasing is able to provide and install updated components in your machine in less than seven days, without the high construction costs associated with replacing it or the expensive upfront cost of purchasing a new machine.

By upgrading your existing MRI or CT, you'll not only gain access to new revenue streams, you'll also be able to fully serve the needs of your community whether you're a regional hospital, part of a health system, or an imaging center. With an upgrade in image quality, you'll be able to make a faster and more accurate diagnosis.
