TABLEAU STARTER BUNDLE

newcomp analytics

Tableau is the ultimate tool to turn your raw data into insights in just a few clicks. From bringing multiple data sources together, to creating beautiful dashboards and sharing them across the organization, Tableau provides an easy and cost-effective way to do it all. This bundle aims to provide your organization with the software, training, and support you need to quickly get started with visual analytics.

INTRODUCING TABLEAU

The Tableau eco-system allows anyone to stand up a Business Intelligence practice within days. Tableau combines a laser focus on how people see and understand data with the kind of robust, scalable platform you need to run even the world's largest organizations.

TABLEAU PREP BUILDER

Tableau Prep Builder has 57+ quick connecters to help bring in data from anywhere and create analytical data flows to support your dashboards through an easy to use visual builder!
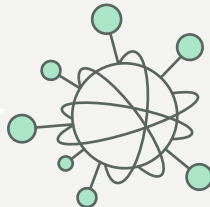

TABLEAU CREATOR

Create insightful reports for your team with access to live data, build maps, run predictive analysis on your data, and when you're done, publish it to the Tableau Server.

TABLEAU SERVER

Publish dashboards, reports, flows and datasets to a shared server environment. Tableau Explorers can then access reports and data sets to consume insights in real-time.

GET STARTED WITH NEWCOMP ANALYTICS

newcomp
analytics

Newcomp designed this Tableau bundle to empower companies building their business intelligence & analytics practice. With office hours and a 2-day training course, your team will be able to hit the ground running.

1 TABLEAU CREATOR

- Discover insights faster by combining a powerful suite of products for visual data prep, best-in-class analytics, and secure collaboration to support your end-to-end analytical workflow.

2 TABLEAU EXPLORER

- Explorers will be able to build new workbooks themselves using published data sources or start with existing workbooks and dashboards, all through their browser or mobile device.

3 TABLEAU FUNDAMENTALS TRAINING COURSE

- Learn to navigate Tableau along with important Tableau Desktop concepts, techniques for simple and complex visualizations and interactive dashboards.

4 TABLEAU OFFICE HOURS

- Sessions can include any of your team members and are in minimum 2-hour intervals.
- Whether you're looking for assistance with setting up your environment, building visualizations, best practices advice, we can help.
