

# ALTERYX DESIGNER BUNDLE

To do your job as a business analyst or data scientist, you must access, blend, analyze, and build models from many data sources. Typically, this means leveraging multiple tools—and even multiple people—to pull together all the relevant data you need for your analytics. Not anymore.

## INTRODUCING ALTERYX DESIGNER

Alteryx Designer delivers a single analytic experience for users of all levels to unlock all your data sources—big or small, clean or dirty—wherever it's stored. Using a repeatable drag-and-drop workflow, you can quickly profile, prepare and blend all of your data without having to write SQL code or custom scripts. Enhance your analysis by incorporating statistical, predictive, prescriptive and spatial analysis in both a code-free or code-friendly environment.

### FROM RAW DATA TO READY-TO-USE RESULTS:

#### COMBINE DATA SETS

From the cloud, on the ground, from Excel, wherever—no problem

#### ANALYTICS FOR ALL

Predictive, statistical, and spatial—code-free for analysts, or code-friendly for data scientists

#### VISUAL INSIGHTS

Visual insights as you build your workflow and share your analysis with Visualytics
